## DETAILED ACTION

### *Response to Amendment*

1. This office action is in response to an amendment filed 12/7/2007.
2. Claims 1 has been amended by the applicant.
3. Claims 7, 8 and 54 have been canceled.
3. Claims 2-6, 9-53 and 55 are original.

### *Claim Objections*

Claim 15 is objected to because of the following informalities: line 2 recites "...a geometric primitive such as a point set, a **h e segment**, or...", however this appears to be a typographical error the claim should recite "...a geometric primitive such as a point set, a **line segment**, or...". Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 14-25, 27-53 and 55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 contains the symbols '*q*', '*y*' and '*d*', as well as the terms "zero level set" and "narrow band", however no language has been provided to clearly define the symbols and terms. Claim 1 also recites the limitations "the zero level set" and "the narrow band" in line 21. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 9, which depends from claim 1, contains definition for the symbols 'q' and 'd', however no language has been provided to clearly define the symbol 'y'.

Claims 10-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 10, which depends from claim 1, contains a definition for the symbol 'y', however no language has been provided to clearly define the symbols 'q' and 'd'.

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 26, which depends from claim 23, contains a definition for the symbol 'd', however no language has been provided to clearly define the symbols 'q' and 'y'.
